GRID NORTH AT COCOA IS 0°30' EAST OF TRUE NORTH
 GRID NORTH AT MELBOURNE IS 0°30' WEST OF TRUE NORTH
 ANNUAL MAGNETIC CHANGE IS 8.5 WESTWARD

This map was compiled from U.S. Geological Survey quadrangle maps, Florida Dept. of Transportation aerial photography compiled March, 1961, General Land Office data, inventory surveys April, 1955, and other available map data.

This map was compiled using interactive computer graphics technology.

This map was prepared on the Transverse Mercator projection, 1883 North American Datum, Florida system of coordinates, East Zone.

The railroad stations on this map do not necessarily denote the presence of a shop or line facility. It may be only a point, such as a platform or siding, designated for the carrier or quality of freight.

No attempt has been made to show all drainage canals or ditches.

All populations are taken from the 2000 United States Census. In 2000 the population of Brevard County was 476,336. There are 1,021 square miles in the county.

No claim is made for the basic cartographic source material taken from a work or works of the United States Government.

Due to the scale of this map, the Florida Department of Transportation assumes no responsibility for inaccuracies in road alignments, configurations of interchanges or other related data.

Corporate boundaries are determined using all available information at the time of preparation. The Florida Department of Transportation Surveying and Mapping Office is not responsible for inaccuracies resulting from changes of unincorporated territory.

Maps of this series are in the public domain. The maps are compiled and published using public tax records and are copyrighted to protect reproduction and resale for profit.

For the price and availability of this map, contact Maps and Publications, Florida Department of Transportation, Tallahassee, FL 32399-0550. Phone (904) 416-0550.
