- POWER SUBSTATION
- COMMUNICATIONS FACILITY
- LOCKED GATE OR FENCE
- TRIANGULATION STATION
- LOCATION OF SYMBOL

This map was compiled from U.S. Geological Survey quadrangle maps, Florida Dept. of Transportation aerial photography compiled Dec. 1981, General Land Office plans, inventory surveys and other available map data.

This map was compiled using interactive computer graphic methodology.

This map was prepared on the Transverse Mercator projection, 1883 North American Datum, Florida space of coordinates, East Zone.

The railroad stations on this map do not necessarily denote the presence of a depot or site facility. It may be only a point, such as a station or siding, designated for the receipt or delivery of freight.

No attempt has been made to show all drainage basins or ditches.

All populations are taken from the 2000 United States Census to 2000 (the population of 1990) for the county, 47,526. There are 1,941 square miles in the county.

No claim is made for the hydrographic portion material taken from a work or works of the United States Government.

Due to the scale of this map, the Florida Department of Transportation assumes no responsibility for inaccuracies in road alignments, configurations of intersections or other related data.

Corporate boundaries are determined using all available descriptions at the date of revision. The Florida Department of Transportation assumes no responsibility for inaccuracies in road alignments, configurations of intersections or other related data.

Maps of this series are in the public domain. The maps are compiled and published using public law monies and are copyrighted to prevent reproduction and resale for profit.

For the price and availability of this map, contact Maps and Publications, Florida Department of Transportation, Tallahassee, FL 32399-0000. Phone (904) 487-6000.
