This map was compiled from U.S. Geological Survey quadrangle maps and aerial photography from 1991, 2002, General Land Office data, road inventory surveys from 2002, and other map data.

This map was compiled using interactive computer graphic techniques.

This map was prepared on the Transverse Mercator projection, East Zone, NAD83 Florida system of state coordinates.

The railroad station symbol as shown on this map does not necessarily denote the presence of a depot at the facility. It may be only a point designated for the receipt or delivery of freight, such as a platform or siding.

Local road alignments in Delimited Areas and Residential Areas Under Development are not indicated.

No attempt has been made to show all drainage canals and ditches.

Due to insufficient space land grants will not be identified by name on this county.

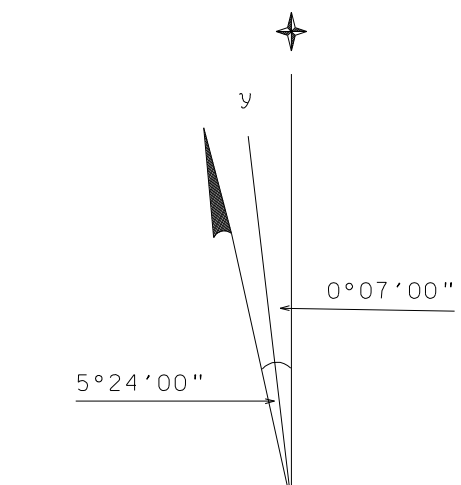

City populations are taken from the U.S. Census for 2000.

In 2000 the population of Flagler County was 49,832. There are 485 square miles in the County.

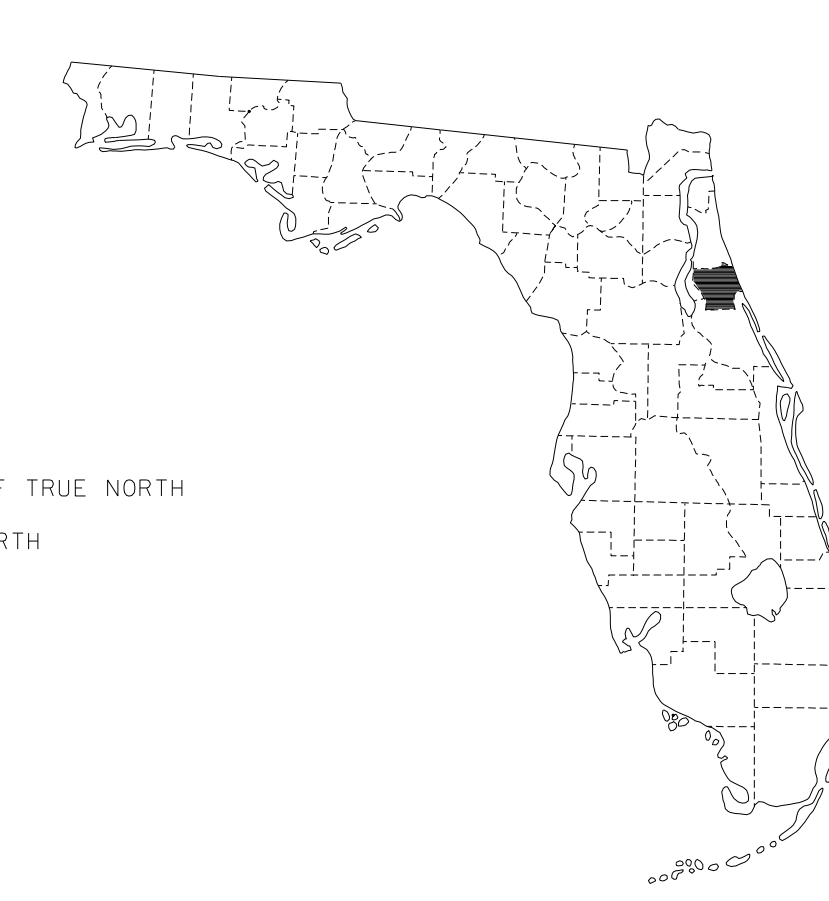

No claims made for the basic cartographic source material taken from a work or works of the United States Government.
