

This map was compiled from U.S. Geological Survey quadrangle maps and aerial photography from 1960, 1965, 1970, 1975, 1980, and other maps. The map was compiled using interactive computer graphic techniques.

This map was prepared on the Transverse Mercator projection, NAD 83, East Zone, Florida system of plane coordinates.

The shaded station symbol as shown on this map does not necessarily denote the presence of a road or the facility. It may be only a point designated for the receipt or delivery of freight, such as a platform or siding.

Estimated population in Delimited Areas or Residential Areas Under Development are compiled from aerial photography from 1960, 1981, and other maps.

In congested rural areas local roads are indicated by a single line only. For details refer to insets prepared for this county.

No attempt has been made to show all drainage canals and ditches.

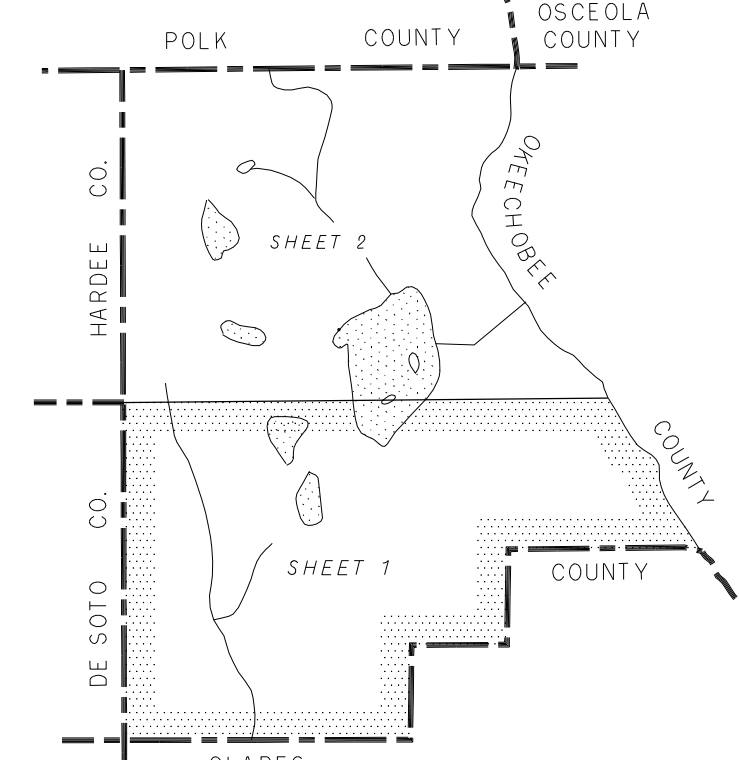

City populations are taken from the U.S. Census for 1980. The population of Highlands County was 47,526. There are 1,341 square miles in the county.

No claims made for the basic cartographic source material. Lines from a water or works of the United States Government.

Boundaries shown are in the public domain. The maps are compiled and published using public tax maps and are copyrighted to prevent photocopying and resale for profit.
